Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This communication is in response to Application No. 10/529,439, filed on 11/03/2005.
2. Claims 1-32 are currently pending.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-32 are rejected under 35 U.S.C. 102 (b) as being anticipated by Kleiman (U.S. Pat. No. 5,959,945).

As per claims 1-31 Kleiman discloses the claimed system for distributing music to local electronic jukeboxes see., abstract, lines 1 and 2, the system comprising:

A song data downloading system for use with a music data server and a musical jukebox, said music data server storing server data of a plurality of songs, said musical jukebox having a compact disk storage and retrieval system, a compact disk player, a music production system for producing audio, and a credit system for accepting user money, said song data downloading system comprising: a song selective device, a control, said control operable to receive a user selection of song data with said song

selection device, the selected song data being chosen from compact disk song data or downloaded song data, said compact disk song data being of a compact disk that is in the compact disk storage and retrieval system of the jukebox, said downloaded song data being server song data that is available to be downloaded from the music data server, said control adapted to provide the selected song data to the music production system and producing audio from the selected song data, and said control discarding downloaded song data upon producing audio from the downloaded song data (see., col 4, lines 21-31, col 6, lines 22-40. fig 1, its).

As per claim 32, Kleiman discloses the claimed method for distributing music to local electronic jukeboxes see., abstract, lines 1 and 2, the method comprising:

Providing a music data server and storing server song data of a plurality of songs with said music data server, providing at least one jukebox, said at least one jukebox having a compact disk storage and retrieval system, a compact disk player, a music reproduction system, a song data download system and credit system for accepting user money, providing a song selection device, receiving a user selection of song data with said song selection device, the selected song data being chosen from compact disk song data or downloaded song data, said compact disk song data of a compact disk that is in said storage and retrieval system, said downloaded song data being server song data that is available to be downloaded from said music data server, providing the selected song data to the music production system and producing audio from the
